

Product Change Notice (SFPS928A Firmware Launch and Change NAND flash SK120-25)

Released date: March 24, 2017

Dear Valued Customers,

Apacer hereby announces the Product Change Notice of the latest version firmware on SK120-25 product, as a result of updating firmware to SFPS928A from SFPS923A for better compatibility. Additionally we will use Toshiba 15nm NAND flash instead of L95B in order to better availability.

The details of changing description are listed at below table:

PCN number:	E170324-01	Date:	03/24/2017																								
Affected Product Model	SK120-25																										
Subject :																											
Releasing the latest version of firmware version (SFPS928A) & change NAND flash to Toshiba 15nm MLC.																											
Description of Change:																											
Update the latest firmware for better compatibility and change NAND flash for better availability																											
Recommended Action:																											
Apacer recommends customers to use SK120-25 with the latest version (SFPS928A) due to better compatibility & availability.																											
Description of Product Part Number Change:
